

CYBER SECURITY & PRIVACY EU FORUM 2012

(CSP EU FORUM) 24th - 25th April, Berlin, Germany

DISCUSSING

FUTURE EU CLOUD SECURITY AND DATA PRIVACY ISSUES

The CSP EU Forum is a European conference on Cyber Security and Privacy organized by Effectsplus, in coordination with the Trust and Security Unit of DG INFSO.

The CSP EU Forum will bring together Cyber Security and Privacy experts in academia, industry and government as well as practitioners, standards developers and policy makers to engage in discussions about common goals for Europe and explore important research directions in the field.

REGISTER NOW to secure your place and learn about state-of-the-art in security and privacy research whilst networking with experts in the field. This learning experience will be facilitated through tutorials, workshops, exhibitions and panel discussions over the 2 day event. The high-level plenary session provides opportunity to hear perspectives and challenges from a wide range of leading technology experts.

VENUE

BERLIN: 24 -25th April 2012, Science and Conference Centre "The Dahlem Cube", Seminaris Campus Hotel, Dahlem Dorf, Berlin.
